The Florida Tropical Fish Farms Association is a trade Association of professional ornamental tropical fish and aquatic plant breeders, the mission of which is to represent its members in governmental matters, provide a cooperative for purchasing necessary materials to produce member products, and support research and development for the production of ornamental species.

Mission Statement

•Lowest Price Possible: By using the collective purchasing power of all the FTFFA members we can negotiate for the lowest bulk prices and pass that savings on to you. Our product line will be priced to cover the cost of goods, operating expenses, and a nominal percentage to fund FTFFA's programs which promote and protect the Florida tropical fish farming industry. When the store does become profitable, excess funds will be returned to participating members on a pro-rated basis dependant on their purchases.

•Service: It is our goal to supply FTFFA members with the majority of the supplies that they typically need on their farms.

•Support FTFFA Activities: A small amount of proceeds from the cooperative store will be used to support FTFFA activities. These activities include legislative support of our industry (at both the state and federal levels), research, promotion of the ornamental fish hobby, and the promotion of Florida tropical fish and aquatic plants.

Why Become a FTFFA Member?

Partner for Prosperity

Thanks to the FTFFA, fish farming is now recognized by the state of Florida as part of aquaculture. The Association works closely with state and federal organizations, including the Florida Department of Agriculture, the EPA, OSHA, FDA, and various Florida water management districts. Such ties to government agencies help to protect the interests of Florida fish farms.

Participating in the FTFFA is an opportunity to contribute suggestions and exchange ideas with members of all branches of the tropical fish industry.

Industry Growth

The result of our efforts to promote and protect tropical fish sales will be industry and market growth. Continued growth can only come to us through our own efforts and by a united group working together towards common goals. Your support and involvement is important! The FTFFA sponsors research and development projects for the benefit of the industry.

Newsletter

Members receive a subscription to a quarterly newsletter containing news of the industry, updates on legislative and regulatory matters, association news and meeting information, and association store specials.

See the website for details.
